INDEX

A

Abdominal operations, kind of, performed under spinal anæsthesia 26
——— surgery, choice of anæsthetic for (H. Finsterer) 3
——— ——— choice of anæsthetic for, bibliography 3
——— ——— spinal anæsthesia in 53, 54
Abdomino-sacral resection of high-located cancer of rectum 12
Abscess. *See* Lung, abscess of; Bronchietactic abscess
Acapnia, causative factor of ether convulsions 148
——— theory of convulsions during ether anæsthesia, résumé of 147
Acetonuria following inhalation of ether 110, 114, 121
Acetylene anæsthesia, not in favour in France 58
Acidosis, clinical manifestation 147
Adipose subjects, local anæsthesia desirable in 4
Adrenal cortex, thyroid and thymus glands and general lymphoid hyperplasia, direct relationship between, clinical evidence supporting 152, 153
Adrenalin, administration, effect on blood sugar before and after operation ... 113, 123
Adults, extraction of teeth in, administration of anæsthetics 76
——— ——— administration of anæsthetics, in difficult cases 76
Aged persons, prognosis of intestinal obstruction in 8
——— ——— results of resection of gangrenous small intestine in 8
Airway, artificial, use of, in anæsthetic procedure for thoracoplasty in pulmonary tuberculosis 22
Alkalosis, clinical manifestation of 147
Allocaine, spinal anæsthesia with 53
American clinics, intrapharyngeal insufflation of anæsthetic through nose used for thoracic surgery in 23
Anæsthesia and analgesia (W. W. Kemp: abstract) 39
——— closed method, disadvantage of, in operations on thorax 22, 23
——— constants in 94
——— general or local, inspiration of foreign body during 170
——— local, after-treatment of patients operated upon under 4
——— ——— combined with ether, administration in operation for intestinal obstruction 7
——— ——— desirable in adispose subjects 4
——— ——— greater safety in cholecystectomy 6
——— ——— in abdominal surgery, advantages summarized 13, 14
——— ——— in resection of the colon 11
——— ——— in children 4, 5
——— ——— in operation for appendicitis, greater safety of 6
——— ——— in surgery of stomach 55
——— ——— laparotomy under, fatal cases recorded 3
——— ——— ——— ——— general safety of 3
——— ——— methods of, used in resection of the stomach 8, 9
——— ——— no deaths from gastro-intestinal atony in operations under 3, 4
——— ——— reduction of mortality from pulmonary complications by 4
——— modern aids to (C. F. Hadfield) 62
Anæsthetic apparatus, semi-automatic quartette of (P. A. Mansfield) 102
——— ——— ——— ——— advantages 105
——— fatalities, statistics relating to, why misleading 1
——— fatality, varying application of term 1

Anæsthetic mortality (W. S. Sykes) 98
——— recovery from, responsibility for signature to document after 134, 135
——— sequelæ (J. Halton) 91
Anæsthetics, administration by unqualified persons, censured by coroner 136
——— ——— results of, tabulated hospital statistics suggested 99, 100, 101
——— dental 74
——— post-mortem examinations of persons dying under, waste of material in 1
——— records of, system of keeping, uniformity necessary 1, 2
Anæsthetists, suggested action of, in respect of proposed Consultant and Specialist Service (London County Council) 133
Analgesia and anæsthesia (W. W. Kemp: abstract) 39
——— following spinal anæsthesia 128
Anoxæmia, prevention of, in thoracoplasty for pulmonary tuberculosis 22
Appendicitis, acute, operation for, under spinal anæsthesia 26
——— operations for, kind of anæsthesia requisite for 5, 6
Arteries, perfusion of fluids into 157
Ashworth, H. G.: Discussion on modern aids to anæsthesia 86
Ashworth, H. K.: Nervous sequelæ of spinal anæsthesia (abstract of a paper read before the Royal Society of Medicine) 127
Association of Anæsthetists of Great Britain and Ireland, constitution of at first meeting 38
——— ——— ——— first annual general meeting 85
——— ——— ——— principal functions of 133
Atmospheric pressure, external, degree of, in relation to efficacy of nitrous oxide and oxygen anæsthesia 70, 71
Atropine, preliminary administration in dental anæsthesia 78
——— ——— ——— in intracranial surgery 138
Avertin, action of, uncertainty of 65
——— administration in abdominal surgery 13
——— ——— ——— results in 300 cases 86
——— ——— ——— unpleasant after-effects following 65, 66
——— affording susceptibility to action of nitrous oxide 66
——— and local infiltration, value of, in operations for toxic goitre 70
——— basal anæsthesia, by means of 59
——— application of Congo red test to 59
——— as anæsthetic for general surgery (H. K. Ransom: abstract) 140
——— as basal anæsthetic 59, 64, 65
——— -morphia, administration in anticranial surgery 137
——— narcosis, recent researches and clinical advances in (von Sebening: abstract) 42
——— rectal injection of 58
——— use of ether, Schleich's mixture, or nitrous oxide with 59
——— use of, in infantile surgery 59
——— See also Nitrous oxide, Oxygen, and Avertin anæsthesia

B

Backache following spinal anæsthesia 129
Barbiturates, action of 66
——— ——— ——— in conjunction with chloroform 68
——— affording susceptibility to action of nitrous oxide 66
——— as basal anæsthetics 66
——— order of in efficiency 67
——— use of, complications attending 67
——— ——— in midwifery 67
Basal anæsthesia by means of avertin 59
——— anæsthetics, administration, method of 63

Basal anæsthetics, special use of 63
——— hypnotic, sodium soneryl as (E. Birdsall: abstract) 182
Basedow's disease. *See* Graves' disease
Birdsall, E., sodium soneryl as basal hypnotic (abstract) 182
Blomfield, J., O.B.E. Discussion on modern aids to anæsthesia 86
——— report on avertin 64
Blood, chemical components, changes in runners 108
——— ether-bearing in circulation 95
——— ——— interchange with nervous system 95
——— hydrogen ion concentration of 147
——— secondary saturation of, in administration of anæsthetics 71
——— alkalosis, production of 148
——— -pressure, fall in, during operations under spinal anæsthesia 29
——— ——— with use of blood-sugar, in post-anæsthetic toxic symptoms 109
——— ——— method of raising before operation for intestinal obstruction ... 8
——— ——— systolic, fall of, during operation 108
——— -sugar, extreme concentration in diabetes mellitus 109
——— ——— rise of, during operations 107, 115, 124
——— ——— with fall of blood-pressure, in post-anæsthetic toxic symptoms ... 109
——— ——— state of, and shock, relation between 108, 109, 115
——— ——— before and after operation, effect of adrenalin upon 113, 123
Blumenthal, R. R., and Shackelland, L. F. Synergism between magnesium salts and ether (abstract) 185
Bromine, premedication with 59
Bronchi, condensation of ether in, avoidance 177
Bronchiectasis, multiple 175
Bronchiectatic abscess, cause of 172
——— ——— prevention 178
Bronchitis, suppurative diffuse 176
——— ——— ——— after general anæsthesia 171
Broncho-pneumonic complications (post-operative), prevention and treatment of (Cosimo-Leo: abstract) 88
Bronchoscopy in acute massive collapse of lung 174
——— in diagnosis and treatment of post-operative complications (V. E. Negus) 165
——— ——— ——— references 179
——— in removal of foreign bodies 170
——— in post-operative suppuration, value of 171
Brown, Gilbert: Respiratory failure treated by endotracheal insufflation (abstract) 42

C

Calcium solution, intra-arterial perfusion, with, in cardiac arrest 156
Carbon dioxide absorption method in gas anæsthesia (P. D. Woodbridge: abstract) 139
——— ——— administration of, value 68
——— ——— and ether, inhaler conserving 95
——— ——— and oxygen, inhalation of atmosphere rich in, prevention of pulmonary infection 96
——— ——— de-etherization of patients by 68
——— ——— deficit. *See* Acapnia
——— ——— excess. *See* Acidosis
——— ——— hospital storage of 63
——— ——— intermittent administration during ether narcosis 59, 60
——— ——— respiratory balancing of 148
——— ——— ——— stimulation by 69
——— ——— therapeutic administration, successful case of 86

Cardiac arrest, unexpected, during ether anæsthesia with temporary resuscitation, cases of 148
——— resuscitation, methods and value of 154
Casual comments 133
Cathelin, sacral anæsthesia of 48
Catheters, use of, in endotracheal anæsthesia for operations on thorax 23
Challis, T. H. T.: Discussion on anæsthesia for intracranial surgery 23
Chest complications, post-operative, after spinal anæsthesia 31
Children, extraction of teeth in, administration of anæsthetics in 75
——— local anæsthesia in 4, 5
Chloroform, action of barbiturates in conjunction with 68
——— anæsthesia, subjects of endocrine imbalance dying under 137
——— and ether vapour, simultaneous inhalation of, apparatus for 103
——— being mistaken for ether, suggestions for avoidance of 135
——— contra-indicated in laparotomy 12
——— date of adoption as general anæsthetic 62
——— ether and ethyl chloride, combination of 51
——— intra-pharyngeal administration, preceded by ethyl chloride ether induction, in dissection of tonsils 79
——— use of, decline in 49
——— ——— in France, adherents to 49
——— ——— limited to operations on young children 52
——— ——— number of French surgeons, in reply to query, advocating 52
Cholecystectomy, greater safety of local anæsthesia in 6
——— under general anæsthesia, fatality of 6
Cilia, action of, in protection of lungs 168, 169
Cleft palate, closure of, method of anæsthetization in 82
Clover's ether inhaler 47, 50
Cocaine, date of introduction as local anæsthetic 63
——— experimental discovery of 48
Colon, cancer of, method of treating acute obstruction due to 8
——— resection of one-stage operation 11
——— ——— one-stage and two-stage, when respectively preferable 8
——— ——— three-stage operation 11
——— ——— under local anæsthesia 11
Coma, clinical manifestations of acidosis 147
Common duct, obstruction of, operation for under local anæsthesia 6
Congo red test, application to avertin 65
Continental countries, belated adoption of various anæsthetics in (editorial) 47
Convulsions during ether anæsthesia, cases of 145, 146
Coroner, administration of anæsthetics by unqualified persons, censured by 136
Cough, as natural defence of lungs 167

D

David, R. B., and Rosenfeld, H. H.: New procedure for obstetrical analgesia (abstract) 39
De-etherization of patients by carbon dioxide 68
Delcaine as spinal anæsthetic 53
Delirium, maniacal, following spinal anæsthesia 129
Dental anæsthetics 74
Descarpentries: Success in use of warm ether vapour 51
——— use of warm ether vapour by 51
Desmarest: Advantages of avertin 58
——— Portable apparatus for nitrous oxide anæsthesia 57
——— A study of French methods of anæsthesia made under the direction of; by Madame Flexer-Lawton 48

Desmarest: Use of chloroform in the case of young children 52
Diabetes mellitus, extreme concentration of blood-sugar in 109
Diverticulitis, perforated, operation for, under spinal anæsthesia 26
Dogliotti, A. M.: Peridural anæsthesia (abstract) 139
——— Spinal peridural anæsthesia (abstract) 182
Dogs with goitre, poor anæsthetic risks 152
Dorsal anæsthesia, sub-arachnoid 48
Dott, Norman: Discussion on anæsthesia for intracranial surgery 137
Duracaine as spinal anæsthetic 25
——— dosage of 27, 28

E

Editorial: Belated adoption of various anæsthetics in Continental countries ... 47
——— Ether convulsions 143
Endobronchial anæsthesia, closed, in thoracic surgery (T. W. Gale and R. M. Waters: abstract) 90
Endocrine hypofunction, lack of resistance to anæsthesia due to 152
——— imbalance, subjects of dying under ether or chloroform anæsthesia 157
Endotracheal administration of gas oxygen (H. G. Griffith: abstract) 88
——— anæsthesia 80
——— ——— in operations on thorax 23
——— ——— use of nasal intubation in 81
——— insufflation, respiratory failure treated by (Gilbert Brown: abstract) 42
Ephedrine, hypodermic injection of 96
——— use of in combination with spinal anæsthesia 53
——— and planocain, injection in spinal anæsthesia 27
Ether, addition to nitrous oxide and oxygen to prevent anoxæmia in operation for thoracoplasty 22
——— ——— ——— oxygen and ethyl chloride in dental operations in adults 76
——— adherence of School of Lyons to 50
——— administration by rectal method as practised in France 56
——— ——— danger to respiratory system during 51
——— ——— ease of, facilitating employment 50
——— ——— in operation for appendicitis 5, 6
——— ——— producing hyperglycæmia 109
——— anæsthesia, acetonuria following 110, 112, 121
——— ——— association with hyperglycæmia and normal glycogen content of liver 107
——— ——— causing fatal gastro-intestinal atony 12, 13
——— ——— convulsions during, cases 145, 146
——— ——— ——— causative factor 148
——— ——— ——— (editorial) 143
——— ——— intermittent administration of carbon dioxide during 59, 60
——— ——— pulmonary complications following 60
——— ——— subjects of endocrine imbalance dying under 157
——— ——— suitability for estimation by state of pre-operative sugar tolerance 112
——— ——— toxic symptoms from, successful treatment based on bio-chemical investigation (R. T. Minnitt) 106
——— ——— ——— references 125
——— ——— unexpected cardiac arrest during, with temporary resuscitation, cases of 148
——— and carbon dioxide, inhaler conserving 95
——— and chloroform vapour, simultaneous inhalation of, apparatus for 103
——— and magnesium salts, synergism between (L. L. Shackelland and R. R. Blumenthal: review) 185

Ether and nitrous oxide anæsthesia, combined, advantages of 71, 72
——— -bearing blood in circulation 95
——— chloroform being mistaken for, suggestions for avoidance of 135
——— combined with local anæsthesia in operations for intestinal obstruction ... 7
——— condensation in bronchi, avoidance 177
——— date of adoption as general anæsthetic 62
——— endotracheal insufflation, in intracranial surgery 138
——— inhaler, Clover's 47, 50
——— ——— Ombredanne's 47, 50
——— introduction by endotracheal anæsthesia 80
——— open, imperfect anæsthesia with 86
——— overdoses of, first reaction to 151
——— post-operative complications of, drawback to use of 50
——— unusual complications of surgical anæsthesia under (W. N. Kemp) 145
——— ——— ——— references 159
——— use of, combined with avertin 59
——— ——— number of French surgeons, in reply to query, advocating 52
——— vapour, warm, success in use of 51
Ethyl chloride, limited application as anæsthetic 62
——— ——— ether induction preceding intra-pharyngeal administration of chloroform in dissection of tonsils 79
Ethylene anæsthesia, not in favour in France 58
——— ——— objections to 63
——— ——— use in United States 63
——— anæsthetic, demand for, below expectation 62
——— as anæsthetic in thoracic surgery 20, 21
——— manufacture for anæsthetic purposes 62
Eyes, discomfort in, following administration of anæsthetics 91, 92

Hæmorrhage from gastric ulcer, operation for, arrest of, under local anæsthesia 10
Hæmorrhoids, ligation of, under spinal anæsthesia 26
Haldane: Relation of depth of narcosis to nervous system 94
Heart, action, arrest of on operating table, suggested primary cause of 157
——— -beat, maintenance of, intra-coronary pressure requisite for 157
——— function, what is essential to maintenance of 157
——— massage of 155
Henderson, Yandell: Immediate regulation of blood *c*H, accomplished by respiration 148
Hernia, inguinal, radical cure of, operation for, effect of administration of avertin 65
——— strangulated, operations for, under spinal anæsthesia 26
Heroin, preliminary administration in thoracoplasty for pulmonary tuberculosis 21
Hill, G. Falkner: High spinal anæsthesia (abstract) 41
Hospital statistics regarding results of administration of anæsthetics suggested 99, 100, 101
Hospitals, anæsthetic mortality 98, 99
Hydraulic bases of spinal anæsthesia (L. Ronse: abstract) 89
Hydrogen ion concentration of the blood 147
——— ——— ——— ——— how regulated 148
Hyperglycæmia and normal glycogen content of liver, association of ether anæsthesia with 107
——— following administration of ether 109
Hyperthyroidism, subjects of, poor operative risks in absence of pre-operative preparation 154

I

Ileus, paralytic, kind of anæsthesia recommended in operation for 7
——— ——— post-operative after spinal anæsthesia 31
——— ——— ——— ——— fatality of 31, 34
Induction, easiness in, requisite 93
——— silence during requisite 93, 94
Infants, operations on, use of avertin in 59
Inhaler, conserving carbon dioxide and ether 95
——— *See also* Clover's ether inhaler; Ombredanne's inhaler
Inhalation-pneumonia, large percentage of mortality in intra-oral operations due to 83
Insulin, administration of, effect on shock during operation 115, 124
——— ——— in prevention of toxic symptoms from ether anæsthesia 115, 124
——— ——— in treatment of toxic symptoms from ether anæsthesia, methods of 114
——— ——— pre-operative effect upon acetonuria and post-anæsthetic toxic symptoms 111, 122
Intestinal atony, post-anæsthetic 11
——— obstruction, acute, operations for, method of anæsthesia suitable for 7
——— ——— prognosis in aged persons 8
Intestine, small, gangrenous, resection of in aged persons, results of 8
Intracardiac injection of stimulating drugs 155
Intra-coronary pressure, necessity of for maintenance of heart-beat 157
Intracranial surgery, anæsthesia for, discussion on 137
Intra-nasal administration of nitrous oxide with oxygen in protracted dental operation in adults 76, 77
Intra-oral surgery, anæsthesia for (D. S. Middleton) 74
——— ——— main cause of mortality in 83
Intrapharyngeal insufflation of nitrous oxide, oxygen, and ether through nose in thoracic surgery 23
Intrapulmonary pressure, differential, benefit of in surgery of thorax and mediastinum 20
——— ——— ——— use in anæsthesia for thoracic surgery 23, 24
Intra-tracheal apparatus with hot water container 82
Intravenous medication in cardiac arrest 155
Intubation, nasal complications arising from 81
——— ——— contra-indication to 82
——— ——— use of in endotracheal anæsthesia 81
